EXPERIENCE

SAP — **Newtown Square, PA**
Americas Revenue Operations Intern — *August 2026 – Present*

- Built business analyses for Global Revenue Operations leadership, processing large-scale sales data across Excel and Power BI to structure executive-facing reports that informed strategic decisions for 10+ NA sales leaders and shaped go-to-market priorities.
- Standardized sales and post-sales reporting formats across 5+ regions, partnering with operations subject matter experts to cut distribution turnaround by 20% and improve reporting accuracy for 50+ stakeholders.
- Drove strategy-to-execution planning for a North America sales enablement initiative, tracking scope, quality, and timeline across 5+ operational goals and surfacing 2 process improvements that were adopted team-wide, improving operational efficiency.

JPMorgan Chase — **Newark, DE**
Global Finance & Business Management Intern — *May 2026 – July 2026*

- Performed balance sheet substantiation and GL reconciliations across 15+ legal entity accounts totaling $2B+ in exposure, partnering with Product Control to resolve 95% of breaks before reporting deadlines.
- Built an Alteryx/Tableau workflow automating a recurring TCIO reporting deliverable, cutting manual prep by 8 hours/week and surfacing 200+ aging substantiation items for senior controllers.
- Led a deep-dive on $500M+ of TCIO activity across 3 front-office systems, delivering 5+ process recommendations to Finance leadership.

SAP — **Newtown Square, PA**
Product Analyst Intern — *July 2025 – May 2026*

- Lead intake of 20–40 daily client tickets, diagnosing clients' product-specific issues across SAP's Business Product Suite, and coordinating with global cloud teams to deliver tailored solutions that drive successful ERP adoption and retention.
- Conduct product-usage analysis for enterprise accounts (Nike, Coca-Cola), evaluating workflows across SAP's product suite to identify underutilized features and delivering recommendations that closed adoption gaps and improved retention by 5%.
- Collaborate across 5+ global CEA teams to standardize engagement workflows, tracking client health KPIs across 200+ cloud subscriptions and equipping clients with tailored solution support that enhanced the post-sales product experience.

PROJECTS

Villanova Business Analytics - Startup Product Growth Simulation — **Villanova, PA**
Product Manager — *October 2024 – December 2024*

- Led a 3-person team to accelerate growth for an outdoor equipment startup, conducting market research and user demand analysis to identify product-market opportunities that drove a class-record $400K in net profit.
- Built data pipelines and dashboards using SQL, Excel, Tableau, and JMP to track product performance metrics and user trends, delivering actionable insights that informed weekly product and go-to-market decisions.
- Prioritized 3 high-impact product initiatives based on ROI analysis and user demand signals, increasing customer acquisition by 15% and reducing inventory costs by 10% over the simulation period.

Villanova Consulting Case - Jumeirah Product & Market Growth Strategy — **Villanova, PA**
Project Manager — *January 2024 – May 2024*

- Led a consulting engagement for Jumeirah Hotel Group's executive leadership, analyzing their multi-tier luxury portfolio across 3 regions (Middle East, Europe, Asia) to identify market share expansion opportunities across 10+ properties.
- Developed and presented a product-positioning and market-growth strategy to Jumeirah and Deloitte executives, leveraging consumer research and competitive benchmarking to prioritize 5 high-growth markets, projecting a 3% revenue increase.

Villanova Finance Group Trading Challenge — **Villanova, PA**
Portfolio Manager — *November 2023 – January 2024*

- Led a team in a simulated trading competition, leveraging Bloomberg Terminal to develop data-driven investment strategies based on market trends, financial metrics, and macroeconomic signals, growing the portfolio by 4% in three months.
- Managed a $1M+ simulated portfolio across 15+ equity positions, rebalancing weekly to outperform 80% of teams.
